**MILITARY TRAINING AREAS
OSIPOVICH, USSR
BELORUSSIAN MD**

25X1A**Training Area A**

This 15,420-acre installation (Osipovich Army Training Area NW, BE No [REDACTED]) is located 7 miles (11.1 kilometers) west of Osipovich at 53-17N 028-28E (Figure 1). Facilities include a tracked-vehicle driver training course, and a moving target tank firing range with a target distance of 4,100 feet (from static firing line to target) and six 2,800-foot firing lanes. Portions of the training area other than the above appear lightly utilized.

Training Area B

This installation covers approximately 560 acres and is located one mile (1.6 kilometers) southeast of Osipovich at 53-16N 028-40E.

It contains a wheeled-vehicle driver training course and open areas for combat training.

A comparative study of KEYHOLE photography from [REDACTED]

revealed that at both areas activity was consistently heavy during the summer with little activity during the winter. No expansion of either area has been observed. Both have good access roads but no direct rail service.

No artillery firing positions or impact areas, bivouac areas, tent camps, engineer training or water-crossing training sites, or airborne or air transportability training facilities were observed.
